

ANNUAL BENEFIT REPORT

GET UNDER THE DOME™!

ABOUT CLEVERDOME

cleverDome, Inc.™ offers a first of its kind “community-driven platform” that protects confidential information, secures it and takes it off the open internet. cleverDome operates as a Co-Op with members who share confidential information with each other “under the Dome™.”

cleverDome’s founders, Aaron Spradlin and Bridget Gaughan, established cleverDome as an Arizona Benefit Corporation on October 24, 2017 to create a solid and permanent

commitment to delivering a community-based solution to protect confidential information in the cloud. Benefit Corporations are for-profit companies that are obligated to consider the impact of their decisions on society and all stakeholders, not just shareholders. As a Benefit Corporation cleverDome’s mission is part of its legally defined goal of providing a public benefit, and cleverdome is measured on its positive impact on society using a third party standard.

How the Dome works

*The Dome provides the fundamental model for the future of secure trust networks by combining secure devices, a secure private network and verified member due diligence to deliver **A GLOBAL STANDARD OF TRUST.***

OUR INITIAL IMPACT ASSESSMENT

cleverDome has adopted the third-party standards established by B Lab® with the goal of seeking B Lab Certification within the first 2 full years of its operations. cleverDome completed its initial B Lab Assessment at fiscal year end December 31, 2017 which represented only two (2) months of operations.

The B Impact Assessment measures Governance, Community, Environment and Customers. cleverDome scored “above average” for Mission Statement Characteristics, Governing Body Characteristics, Mission Lock, Board of Directors Diversity and Supplier Screen Topics. cleverDome has no physical operations which resulted in “below average” responses in the “Environment” category. Questions in the “Customers” category were inapplicable due to cleverDome’s short period of operations in 2017.

OUR PUBLIC BENEFIT PURPOSE

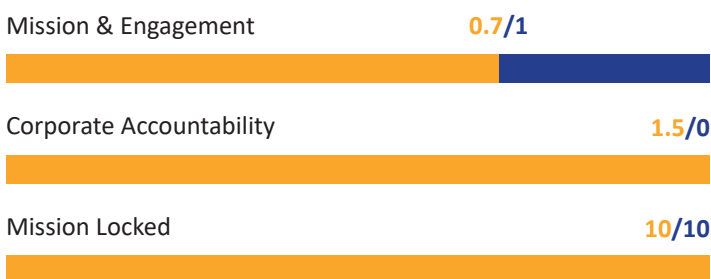

cleverDome’s mission is to protect consumers and entities around the world from the dangers of sharing confidential information in the cloud.

WE DO THIS BY:

- Advancing the knowledge and awareness of how to protect confidential information in the cloud.
- Establishing a secure trust network of verified known users with secure devices sharing confidential information in the cloud.
- Implementing cybersecurity standards for protecting confidential information in the cloud.
- Using a private secure network that is reliable, fast and safe.

Impact Scores as of Dec. 31, 2017

GOVERNANCE

COMMUNITY

Overall B Impact Score **16.1 / 35.8**

OUR IMPROVEMENT AREAS

cleverDome considered the B Impact Assessment Areas for Improvement and has committed to improvement in 2018 in the following areas:

- Mission & Engagement
- Corporate Accountability
- Transparency
- Diversity & Inclusion
- Civic Engagement & Giving
- Local Involvement
- Suppliers, Distributors & Product

We intend to report our progress by showing our Impact Score each year and noting achievements in each area of assessment.
